

Honorable Robert E. Gerber Pg 1 of 1

U.S. Bankruptcy Court

One Bowling Green

New York, New York 10004-1408

Dear Robert E Gerber

My notice to file Objection to the GM  
363 Transaction arrived at my House on 6/22/09.

It said to respond by 6/19/09 @ 5 P.M. Due to  
my late notice I am writing directly to you.  
I own \$97,000.00 of General Motors Global Notes  
(CUSIP 370442AS3). I bought these Bonds on 1/24/05  
for my retirement income. I object to the proposed  
settlement because it is very unfair to bondholders  
and will cause undue hardships. Based on  
printed GM information GM Bond should be  
worth 50 to 60% of their face value if GM sold  
All their present assets at market value. The  
Proposed sale of assets is at such a low price.  
Assets should be sold in smaller groupings to obtain  
much higher value for the assets. And Bond  
holders should come before the interest of employees  
and others who have little vested interest in  
General Motors,

Sincerely

Robert J. Schmidt
